

BIMTECH Internal Policy Document

**Scheme of participation in
International/National Doctoral Consortium**

Doctoral consortium is important juncture for learning during the thesis work. BIMTECH motivates doctoral students to participate in the program which is funded by BIMTECH on merit basis.

At present Centre for Research has developed 2 opportunities:

- International Doctoral Consortiums (annual). To be held this year at Saint Mary's University, in Halifax, Nova Scotia, Canada
- AIM doctoral consortium (annual)

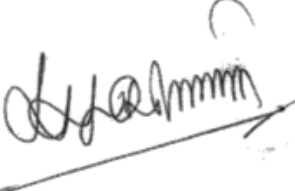

Criteria for selection of Doctoral students for attending the International/National Doctoral Consortiums are as follows-

1. The candidate will be either a faculty or research scholar of BIMTECH. He/She should not be more than 45 years.
2. Bimtech will meet the travel cost. Boarding & lodging will be met by the host institution in international consortium. The national doctoral consortium will be completely funded by BIMTECH.
3. The candidate should have presented his/her synopsis and should have a paper which is approved by internal committee.
4. The office of the Dean (Research) will conduct the process of the selection of suitable candidate.
5. The selection will be based on the performance in the doctoral course work, synopsis and the paper.
6. Director will be the final authority for review and approval.
7. Candidate, who has been selected once for either of the consortium, will not be eligible for future consortia.

This policy remains effective till modification.
